

Benha University

Computer Applications I SUR 224

Surveying Engineering Department

Faculty of Engineering
(at Shoubra)

Semester Project

Problem Statement:

Write a full program that solves any problem from other courses (*Math, Physics, etc.*). Make sure that you cover as much as possible of what you have learned during *Computer Applications I*.

Deliverables (in electronic form):

1. Detailed Problem Statement
2. Pseudo Code
3. Flowchart
4. Complete Code (in a ready to work state)

Due Date:

The project will be delivered and evaluated during the *oral exam* (one or two weeks earlier than the final exam).

Grading:

During the *oral exam*, you will be asked two questions. Every question worth **10 marks**.

Good Luck
Dr. Islam ElShaarawy
